

# Think together

1 How many  are there?

There are  .

It's difficult to fit all these jumps on the number line.

I think I could count the ones all in one go.

2 How many  are there?

There are  .

**CHALLENGE****3** Find the mistakes.

There are 67 sweets in total.

**a)****b)**

50	51	53	54	55	56	57	58
----	----	----	----	----	----	----	----

**c)**

I think there is a number missing from the number track.

I think there is a mistake in each one.
