

# Give me 5!

1.  $450 + 633 = 1088$

2. What is half of 50? 25

3.  $44 \div 4 = 11$

4. If I have 30 sweets and I share them equally between 10 people, how many sweets would each person get? 3

5.  $24 = ? \times 6$

# Writing Length in Metres

## Lesson 3

### In Focus

Distance is used to describe the length between one place and another.

What is the distance between the zoo and the bird park?

### Let's Learn

The distance between the zoo and the bird park is about 19 kilometres. We write km for kilometre.

1 kilometre is the same as 1000 metres.

1 km = 1000 m

Kilometre, or km, is another unit of length. We use km for long distances.

The length of 10 football pitches is about 1000 m or 1 km.

Do you know a place that is about 1 km away from your school? How can you tell the distance from your school to that place?

The distance from the cable car station to the mountain top is 1 km 650 m.  
The distance is more than 1 km.

$$\begin{aligned} 1 \text{ km } 650 \text{ m} &= 1000 \text{ m} + 650 \text{ m} \\ &= 1650 \text{ m} \end{aligned}$$

## Guided Practice

1 Write in metres.

(a)  $1 \text{ km } 400 \text{ m} = \boxed{\phantom{000}} \text{ m}$

(b)  $3 \text{ km } 45 \text{ m} = \boxed{\phantom{000}} \text{ m}$

(c)  $5 \text{ km } 5 \text{ m} = \boxed{\phantom{000}} \text{ m}$

2 Look at the map and answer the questions.

(a) The distance between Sam's house and the  $\boxed{\phantom{000}}$  is the shortest.

(b) The distance between the skatepark and Sam's house is  $\boxed{\phantom{000}}$  m.

(c) Sam needs to travel  $\boxed{\phantom{000}}$  km  $\boxed{\phantom{000}}$  m from his house to the shopping mall.

1 Write in metres.

(a)  $1 \text{ km } 400 \text{ m} = 1400 \text{ m}$

(b)  $3 \text{ km } 45 \text{ m} = 3045 \text{ m}$

(c)  $5 \text{ km } 5 \text{ m} = 5005 \text{ m}$

2 Look at the map and answer the questions.

(a) The distance between Sam's house and the **Market** is the shortest.

(b) The distance between the skatepark and Sam's house is **2305** m.

(c) Sam needs to travel **4** km **10** m from his house to the shopping mall.

- 1 Look at the diagram and fill in the blanks.

- (a) The distance between the  and the  is the shortest.

- (b) The distance between the stadium and the school is  m.

___ km ___ m	
___ km or ___ m	___ m
___ m	

- (c) The school is  m away from the house.

___ km ___ m	
___ km or ___ m	___ m
___ m	

(a) 1 km 450 m ●

● 1005 m

(b) 1 km 45 m ●

● 10 004 m

(c) 1 km 5 m ●

● 1450 m

(d) 1 km 50 m ●

● 1045 m

(e) 10 km 4 m ●

● 1050 m

**3** Write each of the following in metres.

(a) 2 km 400 m =  m

(b) 6 km 20 m =  m

(c) 9 km 65 m =  m

(d) 5 km 7 m =  m

(e) 4 km 1 m =  m

1 Look at the diagram and fill in the blanks.

(a) The distance between the **Stadium** and the **House** is the shortest.

(b) The distance between the stadium and the school is **2900** m.

(c) The school is **2065** m away from the house.

**3** Write each of the following in metres.

(a) 2 km 400 m = 2400 m

(b) 6 km 20 m = 6020 m

(c) 9 km 65 m = 9065 m

(d) 5 km 7 m = 5007 m

(e) 4 km 1 m = 4001 m

## Challenge A

I have 2 m of ribbon. How many 60 cm lengths can I cut from it?

How long is the crayon?

Find the total length of route A.  
Find the total length of route B.  
How much longer is route A than route B?

## Challenge B

A crocodile is 3 times as long as a pig. An elephant is 1.2 m longer than the crocodile. The elephant is 4.2 m long. How long is the pig?

Ahmed's ruler is broken. Explain how he can still use it to measure things in the classroom.

What is the difference in length between the pen and the pencil?
