

What do you think we are
focusing on today?

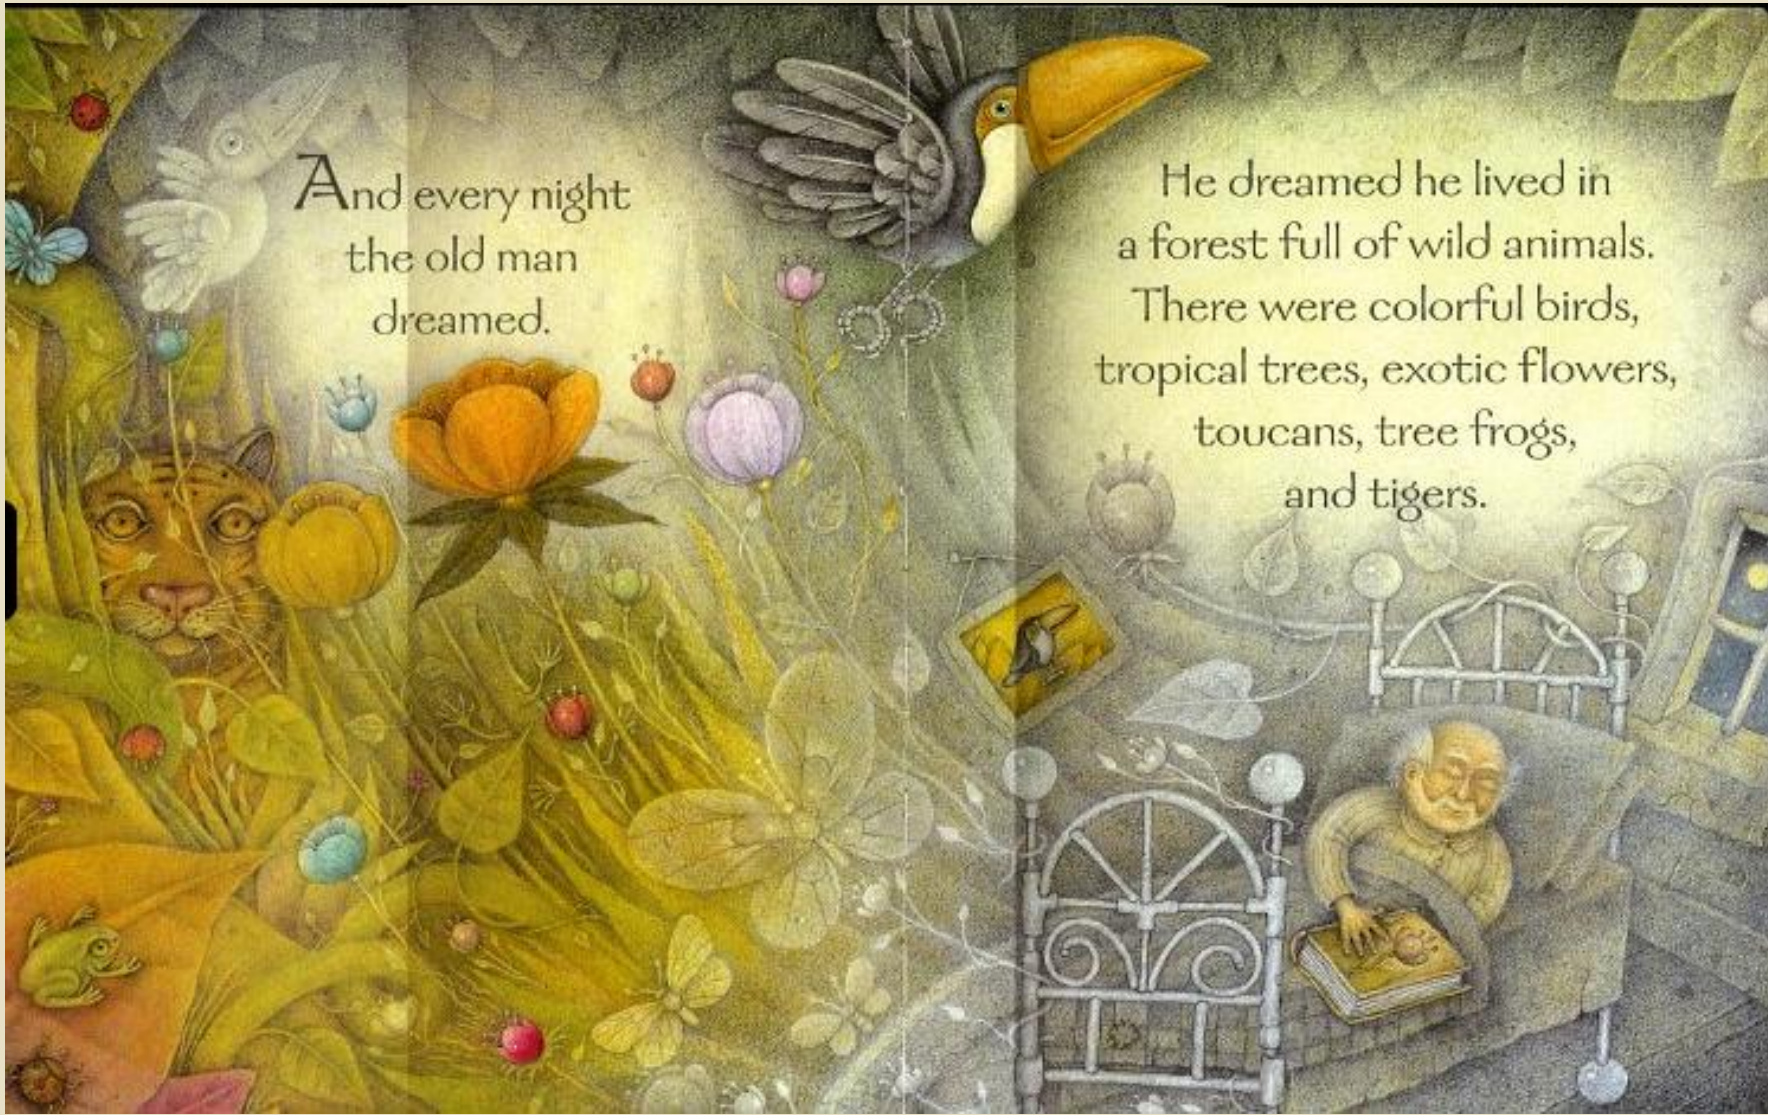

Monday 1st March

WALT: Retrieve key information from the
text

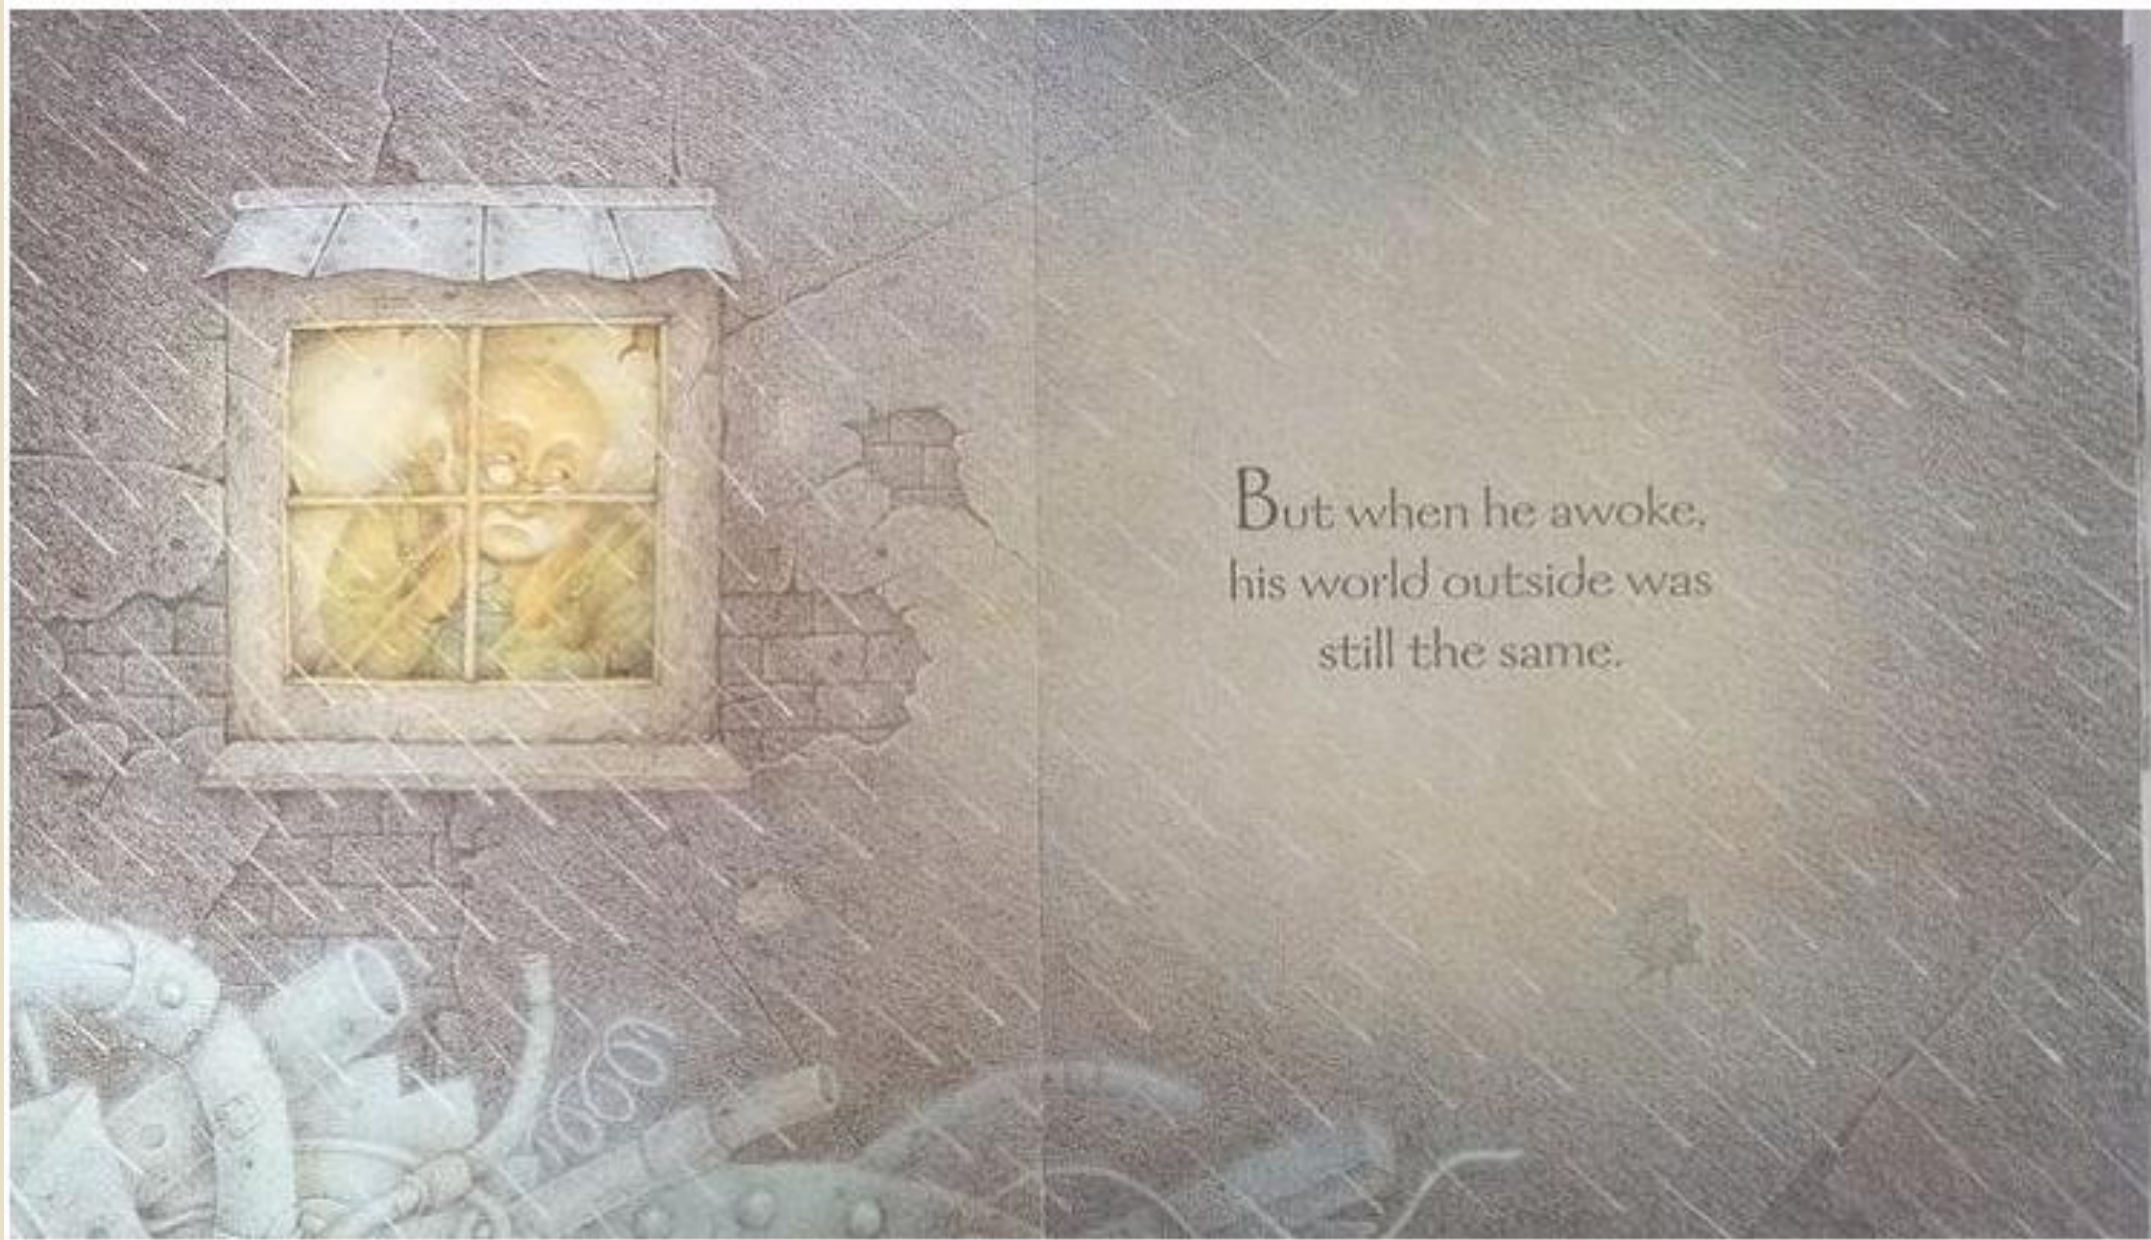

Read the following pages and then
retrieve the answers from the text.
Remember the answers are in the
text.

A detailed illustration of a forest scene. On the left, a tiger's face is partially visible through dense foliage. Above it, a white bird is in flight. In the center, there are large, vibrant flowers in orange, purple, and yellow, surrounded by green leaves and small red berries. A toucan with a large yellow beak is perched on a branch in the upper right. A small green frog is visible in the lower left. The overall scene is lush and colorful, representing the dream world of the old man.

And every night
the old man
dreamed.

He dreamed he lived in
a forest full of wild animals.
There were colorful birds,
tropical trees, exotic flowers,
toucans, tree frogs,
and tigers.

But when he awoke,
his world outside was
still the same.

Using the image on the first page, what do the colours represent about how the man feels about his dreams?

Copy an example of alliteration.

Is the story told from the man's perspective? Why?

List the things the man dreamed would live in the forest.

What did the man do every night?

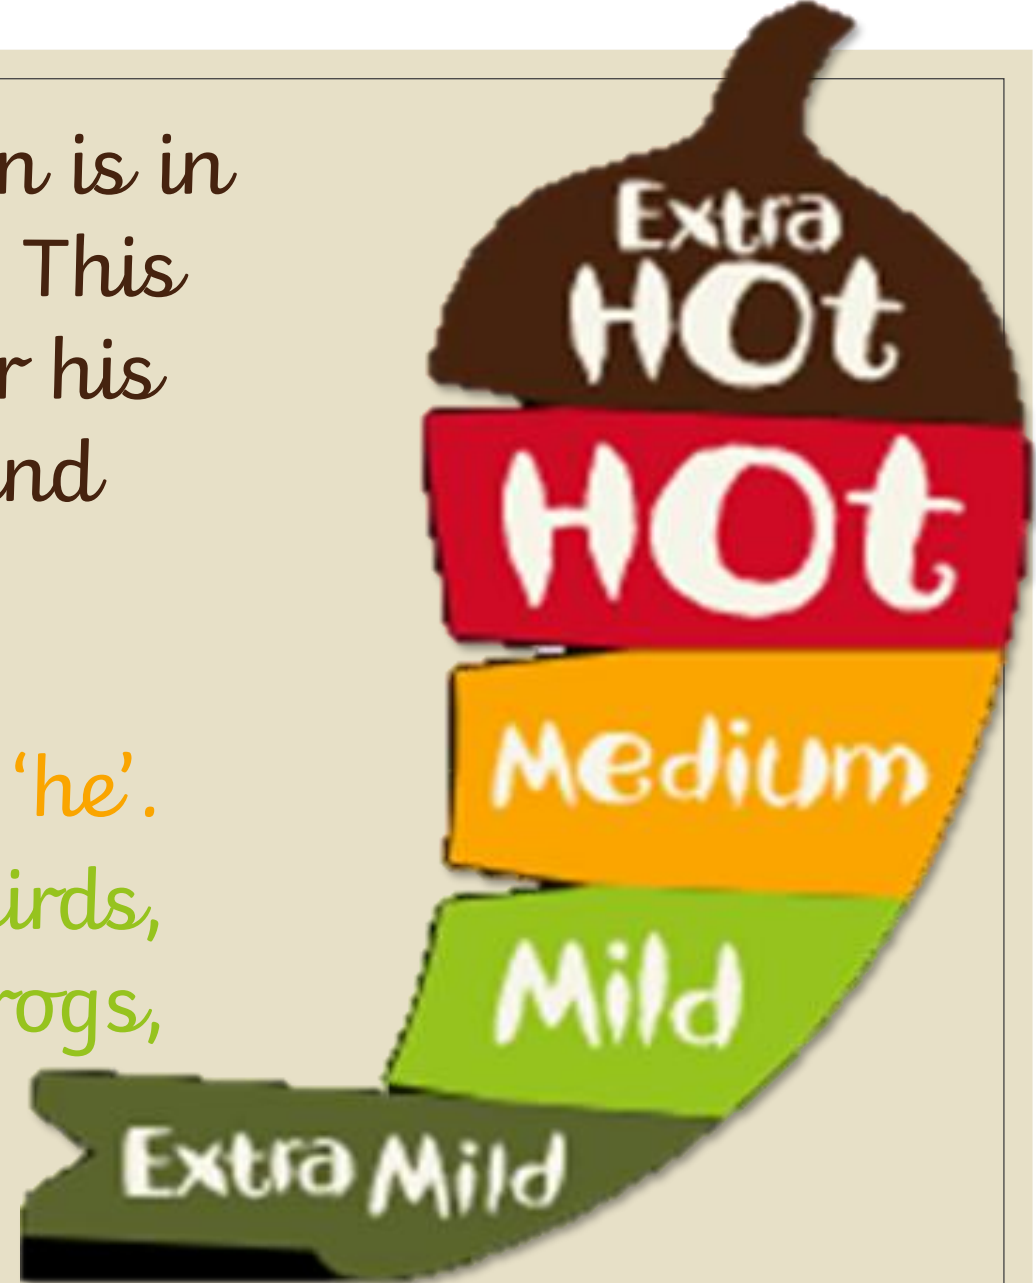

The colours show you that the man is in grey and his dreams are in colour. This suggests that the man might prefer his dreams as they are more vibrant and exciting.

Tropical trees

No because it refers to the man as 'he'.

He would be there with colourful birds, tropical trees, exotic flowers, tree frogs, toucans and tigers.

Dream.

Post your work on dojo!
