

You are now going to create a fact file for the layers of the rainforest. For each layer, you will write about the **climate**, **plants**, **animals** and **any other interesting facts**, then draw a picture. This could be of an animal you find in that layer, or the types of plants that grow there. Look back through the slides to help you find your facts.

Before you start, click on me to watch a video about the layers of the rainforest and note down any interesting facts you would like to include in your fact file.

**LAYERS OF THE RAINFOREST
FACT FILE**

EMERGENT LAYER Climate: _____ Plants: _____ Animals: _____ Other interesting facts: _____	<input type="text"/>
CANOPY LAYER Climate: _____ Plants: _____ Animals: _____ Other interesting facts: _____	<input type="text"/>
UNDERSTORY LAYER Climate: _____ Plants: _____ Animals: _____ Other interesting facts: _____	<input type="text"/>
FOREST FLOOR LAYER Climate: _____ Plants: _____ Animals: _____ Other interesting facts: _____	<input type="text"/>

Learning Check

In your explorers' backpack write down all the new vocabulary you have learned in today's lesson.

Keep this backpack safe so you can carry your new knowledge with you and keep adding to it.
