

1) A)

You can now choose some objects to measure around the room using a tape measure. Have a guess first and then check if you were right. Use the example to help you.

object	my guess	check
length of whiteboard	more than 1 m	more than 1 m

(b) Name an object for each of the heights shown in the table.

Height	Object
Less than 1 m	
About 1 m	
More than 1 m	

CHALLENGE:

Could you measure yourself or someone who is working with you today? Have a guess first and then measure them to see how tall they are.

Let us know how you get on by posting on Dojo!
