

Thursday 25th February

WALT: To infer how the man felt

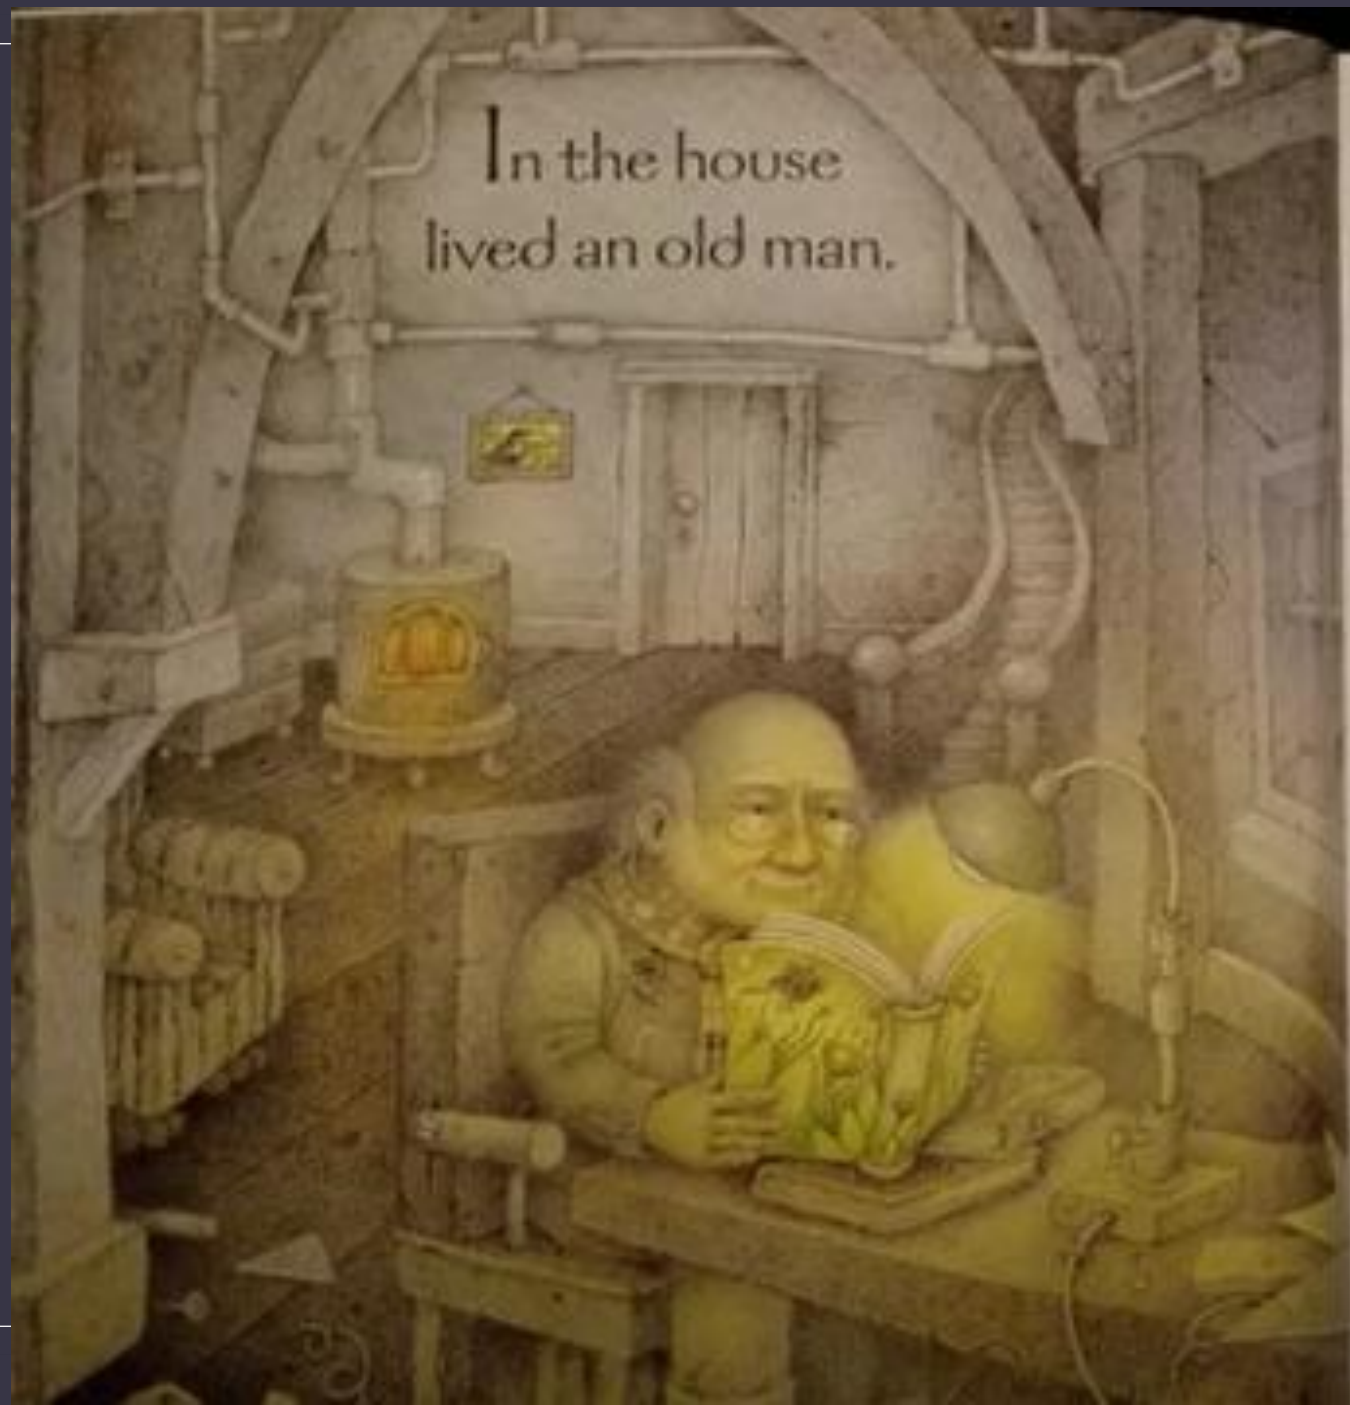

Today's focus is inference.

Inference means to make a guess about something based on what we can see and facts we might have read.

= Inference- Use
the clues to work
it out

In the house
lived an old man.

Looking at the man, what do you think he was thinking?

How was he feeling in this picture?

Think about why...

Draw a thought bubble and write the man's thoughts inside. Think about how this relates to his feelings.

Post your work on dojo!
