

October 2023

Dear Parent/Carer of Year 6 students,

We are looking forward to our open evening which is happening on Thursday 19th October 2023. You are invited to come along and see our amazing school and meet the staff and students which make us a fantastic choice for secondary education.

Our aim is to inspire our young people to be their very best and go on to achieve beyond what they thought possible. Through excellent teaching, high expectations and the best pastoral care our students have gone on to do incredible things. Whether it be through earning places at the top universities, taking advantage of our industry links to help them achieve their goals, or by using what they have learnt to do exactly what they dream of. We firmly believe that young people being happy is paramount and provide excellent care and guidance to enable our students to thrive.

Our students value that our school is different. We specialise in Science, Technology, Engineering and Mathematics and have industry standard facilities in these areas. We have a large "outstanding" sixth form which prepares and equips our young adults for successful futures. Our school is diverse and underpinned by respect. We celebrate the range of cultures and backgrounds and respect each other.

Would you like to know more? If so, please book your place on this link www.nuast.org.uk/events

I look forward to meeting you on the 19th October.

Yours faithfully

Dave Thompson
Head of School
