

Medical Tracker Guidance

(Parent Version 1 Updated Nov 2023)

Below is guidance on what we would report to parents/carers on Medical Tracker and we do not to report:

Cat 1	Phone call home and report on Medical Tracker	<ul style="list-style-type: none"> • Injury to mouth, face or head that leaves a mark or breaks the skin • Injury to the groin area • Any injury that is clearly visible and likely to cause concern to parents on first sight. • Stings with a severe reaction 	
Cat 2	Report on Medical Tracker	<ul style="list-style-type: none"> • All head/face injuries • Large grazes • Any injury caused by another child ie bite, scratch that breaks the skin • Any graze that you are unable to remove the grit from • Stings with a mild reaction • Splinters 	
Cat 3	No need to report	<ul style="list-style-type: none"> • No visible mark and the child seems their usual self • minor cuts/grazes • minor bumps to any part of the body other than the head that leave no mark
